---

This product has been adjusted specifically for use in the region to which it was originally shipped. If operated outside this region, the product may not perform as stated in the specifications.

---

No part of this manual may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, or otherwise, without the prior written permission of EIZO Corporation. EIZO Corporation is under no obligation to hold any submitted material or information confidential unless prior arrangements are made pursuant to EIZO Corporation's receipt of said information. Although every effort has been made to ensure that this manual provides up-to-date information, please note that EIZO monitor specifications are subject to change without notice.
Notice for this monitor

Cleaning

Attention

• Chemicals such as alcohol and antiseptic solution may cause gloss variation, tarnishing, and fading of the cabinet or panel, and also quality deterioration of the image.
• Never use any thinner, benzene, wax, and abrasive cleaner, which may damage the cabinet or panel.

Note

• The optional ScreenCleaner is recommended for cleaning the cabinet and panel surface.

The stains on the cabinet and panel surface can be removed by moistening part of a soft cloth with water.

To use the monitor comfortably

• An excessively dark or bright screen may affect your eyes. Adjust the brightness of the monitor according to the environmental conditions.
• Staring at the monitor for a long time tires your eyes. Take a 10-minute rest every hour.

Chapter 1  Product overview

This color LCD monitor can display images from up to 16 network cameras\(^*1\).

\(^*1\) A type of camera which converts images into network signals and transmits the signals.

1-1.  System Configuration

\*1 Up to 16 network cameras can be registered.
\*2 Use an HDMI device (e.g. network video recorder) if necessary.
Chapter 2  Turning On / Off the Power

● To turn on the power

1. Turn on the main power switch on the back of the monitor.
   The main power switch is turned on when factory default settings are configured.

2. Press (O) on the front of the monitor or POWER on the remote control.
   The power indicator lights up blue and the live image screen is displayed.
   (For details on the live image screen, refer to “3-2. Live Image Screen” (page 8).)

   **Attention**
   • By default, it takes approximately one minute for the live image screen to be displayed after the power is turned on (A rotating bar indicating startup is displayed). Do not turn off the monitor during startup.
   • When the monitor is started up for the first time, a menu for operating the monitor and network cameras is displayed.
   • When no network camera is registered, a “Not Registered” message is displayed at the network camera image display area.

   **Note**
   • The time required to display the live image screen can be reduced (Quick Start) by changing the power-off status. For details, refer to the Installation Manual.

● To turn off the power

1. Press (O) on the front of the monitor or POWER on the remote control.

   **Attention**
   • The power indicator flashes blue while the system is shutting down.
   • The power-off status differs depending on the “Quick Start” setting. For details, refer to the Installation Manual.
     - When set to “On”: Part of the system remains running. (Power Indicator: Red)
     - When set to “Off”: The system is shut down completely (default setting). (Power Indicator: OFF)
   • When turning off the main power of the monitor, follow the procedure below.
     1. If “Quick Start” is set to “On”, change the setting to “Off”.
     2. Press (O) on the front of the monitor or POWER on the remote control to turn off the power.
        The system is shut down and the power indicator turns off.
     3. Turn off the main power switch.
   • Turning off the main power of the monitor before the system completely shuts down may cause equipment damage.
   • Use the remote control within the range illustrated in the diagram below.

   • When installing multiple monitors, leave sufficient space between each monitor so that only the intended monitor will be operated by the remote control. Otherwise, all monitors that receive the remote control signal will operate accordingly.
Chapter 3 Operating the System

Each menu is operated using the remote control or a USB mouse. This chapter describes operating the menus using the remote control. To operate menus when using a USB mouse, refer to each item. For details on connecting a USB mouse, refer to “Basic menu operations” (page 9).

3-1. Remote Control

3-2. Live Image Screen

The live image screen is displayed when the monitor is turned on. There are two states to the live image screen. Live image screen menu can be shown or hidden by pressing FULL.

![Live image screen](camera images and menu)

![Live image screen](camera images only)

**Note**

- You can also operate the live image screen from your Web browser. For information on operation from a Web browser, refer to the Installation Manual.
Basic menu operations

The menu is used for operation and setting of network cameras and the monitor.

Live Image Screen

1. Display mode menu

2. System setup menu / Camera control menu

Network camera image display area
- When no camera is registered, a “Not registered” message is displayed.
- When an input signal is not supported, a “Communication Error” message is displayed.

Attention

- When sequence display is enabled, the system setup menu and the camera control menu are inoperable.

Note

- The displayed menus can be operated by remote control even if the menus on the live image screen are hidden.
- When using a USB mouse to operate the menu
  - Connect the mouse to the USB downstream port at the back of the monitor.
Display mode menu

Camera images displayed on the live screen can be operated.

</tbody>
</table>

   To enter a new character, press >.
   To delete a character, press CLEAR.

3. Press ENTER.

   **Note**
   - Entering network addresses
     Network address text fields are separated by [.] (a period mark).
     - When a three-digit number is entered, the cursor automatically moves to the next entry position.
     - When entering a two-digit or one-digit number, press > to move to the next entry position.
   - When using a USB mouse
     - When you enter a period “.”, the cursor moves to the next entry position.
     - To enter characters, click “Keyboard” on the character entry screen. Then click the keys on the displayed keyboard to enter characters.

   **Attention**
   - The remote control cannot be used to select the character entry screen keyboard.

   **Attention**
   - The operable range of the menu differs according to the level of the user accessing this product.
   There are three user levels: “LIVE”, “CAMERA CONTROL” and “ADMIN”. The range of operation for each level is shown below.

<table>
<thead>
<tr>
<th>Level</th>
<th>Display mode menu</th>
<th>System setup menu</th>
<th>Camera control menu</th>
</tr>
</thead>
<tbody>
<tr>
<td>LIVE</td>
<td>√</td>
<td>√</td>

</tr>
<tr>
<td>CAMERA CONTROL</td>
<td>√</td>
<td>√</td>
<td>-</td>
</tr>
<tr>
<td>ADMIN</td>
<td>√</td>
<td>√</td>
<td>√</td>
</tr>
</tbody>
</table>

   - When the power is turned on and after logoff, the user level is “LIVE”.
   - For information on setting user levels, refer to the Installation Manual.
### 3-3. Changing Over Screen Layout and Displayed Pages

**To change over the screen layout**

Changes the number of camera images to display on the live image screen.

**Procedure**

1. Press LAYOUT on the remote control. When using a USB mouse, the screen layout changes by selecting the display screen layout icon.

**Example: When the camera image is 16:9**

- 1 Screen
- 3 Screens
- 4 Screens
- 9 Screens
- 8 Screens
- 16 Screens

*1 Display set to the aspect ratio mode “Aspect” when the camera image is 16:9 (For details, refer to section “2-4. Setting the Camera Image Display Position” in the Installation Manual).

**Attention**

When displaying the image layout in three screens:

- Only the Axis network camera displays portrait images maintaining their vertical and horizontal image aspect ratios. To display images, the network camera setting is required. For details on the settings, refer to the network camera User’s Manual.

**Note**

- The selected network camera image is displayed in one screen by selecting the live image screen network camera image and pressing LAYOUT on the remote control.
● To change over the page displayed on the screen
Except for when the screen layout is 16 Screens, camera images are displayed by changing over pages.
Pages can be changed over either manually or automatically at a set interval (sequential display).

Changing pages manually

Procedure
1. Press PAGE- or PAGE+ on the remote control.
   Each time the button is pressed, the page displayed on the screen changes over. When using a USB mouse, select PAGE- or PAGE+ in the display menu.

   Example: 4 Screens layout

   ![Example Image]

Changing pages automatically (Sequential display)

Procedure
1. Press SEQUENCE on the remote control.
   Pages displayed on the screen are changed over automatically at a specified interval.

   ![Attention Image]

   Note
   • The interval for page changeover can be changed (default setting: 5 sec). For information on how to change the display interval, refer to the Installation Manual.
   • To stop sequential display, press SEQUENCE again.

   Attention
   • During sequential display, camera control is disabled and the setting screen cannot be displayed. The sequential display must be stopped in order to operate cameras or display the setting screen. For information on how to display the setting screen, refer to the Installation Manual.
   • Only pages registered for the network camera are displayed in the sequence display. Pages not registered with the camera will not be displayed.
3-4. Turning Smart Functions On / Off

Enable or disable settings of Smart Functions. Using Smart Functions improves the camera image visibility.

Procedure

1. Press Smart on the remote control.
   Each time the button is pressed, Smart Functions are turned on or off.

Note

- For information on how to configure Smart Functions, refer to the Installation Manual.

3-5. Controlling Network Cameras

● Before operation

Network camera control is allowed only when the level of the user accessing this product is “CAMERA CONTROL” or “ADMIN”.
Be sure to log in to the system with a user account of either of these levels.

Procedure

1. Select  (Login) under “System”.
   The login screen is displayed.

2. Enter a username and a password.
3. Select “Login”.
   The display returns to the live image screen.
4. Press RETURN on the remote control.
   The system frame is selected (highlighted in green).

Note

- For information on how to enter characters, refer to “Entering characters” (page 11).
- The following user information is set by default:
  - Username: “admin”
  - Password: “admin”
  - User Level: “ADMIN”
- For information on how to configure users, refer to the Installation Manual.
- It is recommended that you log out after completing operations, so as to prevent a third party from operating the camera or altering the settings.

Attention

- When the monitor power is turned off while the user is logged in, the user is logged out from the system automatically. In such a case, you will also be logged out from the web browser.
To Operate network cameras

**Procedure**

1. Select the camera control menu.
   1. Press RETURN.
   2. Select the camera control menu using \( \wedge \) or \( \vee \), then press ENTER.

2. Select the network camera to operate.
   1. Check that “Camera” is selected and press ENTER.
   2. Select a network camera displayed in the live image screen using \( \wedge \) or \( \vee \), then press ENTER. The frame around the selected camera image become bold.
   3. Press RETURN.

3. Select a function to use.
   1. Select a function to use using \( \wedge \) or \( \vee \).
   2. Press ENTER.

4. Operate the functions.

**Attention**
- Depending on the type of the network camera you are using, some functions may not be available.

**Note**
- To select a network camera to operate, use the numerical buttons on the remote control. Also, click the USB mouse to select an the image in the live image screen.
- The position at which images in the live image screen are displayed can be changed. For details, refer to the Installation Manual.
# Brightness / Preset / Focus

<table>
<thead>
<tr>
<th>Function</th>

</table>
| Zoom | Adjusts the network camera display magnification.  
1. Press ZOOM- / ZOOM+.  
- | Zooms out each time ZOOM- is pressed.  
- | Zooms in each time ZOOM+ is pressed. |
| Position | Adjusts the shooting position of the network camera.  
1. Press < / > / ▲ / ▼.  
- | Adjusts the horizontal position (pan).  
- | Adjusts the vertical position (tilt). |

# Auxiliary Command

<table>
<thead>
<tr>
<th>Function</th>
<th>Detail</th>
</tr>
</thead>
</table>
| Auxiliary Command | Operates auxiliary functions for the network camera(s).  
1. Select the list box for the "Auxiliary Commands", then press ENTER.*1  
2. Select the auxiliary command using ▲ or ▼, then press ENTER. |

*1 Auxiliary commands can be operated using only ONVIF specified devices.

**Note**  
• When operating with a USB mouse, the network camera position can be adjusted automatically by clicking on a position in the image where you wish to set as the center of the image display (only supports Panasonic or AXIS network cameras equipped with pan, tilt, and zoom functions).
3-6. Adjusting Screen Brightness

Adjust the brightness of the monitor screen by changing the brightness of the backlight (light source at the back of the LCD panel).

**Adjustable range**
0 to 100

**Procedure**
1. Press BRIGHT- or BRIGHT+ on the remote control.
   The brightness adjustment menu is displayed.

2. Set the brightness with BRIGHT- or BRIGHT+.
   The menu disappears automatically after approximately five seconds.

3-7. To switch among input signals

Press INPUT on the remote control to change over the input signal. When the signal is switched, the active input port name appears at the top right corner of the screen.

**Note**
- SIGNAL on the monitor also can change the input.
## 4-1. No picture

<table>
<thead>

EIZO Corporation (hereinafter referred to as “EIZO”) and distributors authorized by EIZO (hereinafter referred to as the “Distributors”) warrant, subject to and in accordance with the terms of this limited warranty (hereinafter referred to as the “Warranty”), to the original purchaser (hereinafter referred to as the “Original Purchaser”) who purchased the product specified in this document (hereinafter referred to as the “Product”) from EIZO or Distributors, that EIZO and Distributors shall, at their sole discretion, either repair or replace the Product at no charge if the Original Purchaser becomes aware within the Warranty Period (defined below) that the Product malfunctions or is damaged in the course of normal use of the Product in accordance with the description in the instruction manual attached to the Product (hereinafter referred to as the “User’s Manual”).

The period of this Warranty is two (2) years from the date of purchase of the Product (hereinafter referred to as the “Warranty Period”). EIZO and Distributors shall bear no liability or obligation with regard to the Product in relation to the Original Purchaser or any third parties other than as provided under this Warranty.

EIZO and Distributors will cease to hold or store any parts (excluding design parts) of the Product upon expiration of seven (7) years after the production of the Product is discontinued. In repairing the monitor, EIZO and Distributors will use renewal parts which comply with our QC standards. If the unit cannot be repaired due to its condition or the stockout of a relevant part, EIZO and Distributors may offer the replacement by a product with equivalent performance instead of repairing it.

The Warranty is valid only in the countries or territories where the Distributors are located. The Warranty does not restrict any legal rights of the Original Purchaser.

Notwithstanding any other provision of this Warranty, EIZO and Distributors shall have no obligation under this Warranty whatsoever in any of the cases as set forth below:

(a) Any defect of the Product caused by freight damage, modification, alteration, abuse, misuse, accident, incorrect installation, disaster, faulty maintenance and/or improper repair by third party other than EIZO and Distributors;
(b) Any incompatibility of the Product due to possible technical innovations and/or regulations;
(c) Any deterioration of the sensor;
(d) Any defect of the Product caused by external equipment;
(e) Any defect of the Product on which the original serial number has been altered or removed;
(f) Any normal deterioration of the product, particularly that of consumables, accessories, and/or attachments (e.g. buttons, rotating parts, cables, User’s Manual, etc.);
(g) Any deformation, discoloration, and/or warp of the exterior of the product including that of the surface of the LCD panel;
(h) Any defect of the Product caused by placement in a location where it may be affected by strong vibration or shocks;
(i) Any defect of the Product caused by liquid leaking from battery; and
(j) Any deterioration of display performance caused by the deterioration of expendable parts such as the LCD panel and/or backlight, etc. (e.g. changes in brightness, changes in brightness uniformity, changes in color, changes in color uniformity, defects in pixels including burnt pixels, etc.).

To obtain service under the Warranty, the Original Purchaser must deliver the Product, freight prepaid, in its original package or other adequate package affording an equal degree of protection, assuming the risk of damage and/or loss in transit, to the local Distributor. The Original Purchaser must present proof of purchase of the Product and the date of such purchase when requesting services under the Warranty.

The Warranty Period for any replaced and/or repaired product under this Warranty shall expire at the end of the original Warranty Period.

EIZO OR DISTRIBUTORS ARE NOT RESPONSIBLE FOR ANY DAMAGE TO, OR LOSS OF, DATA OR OTHER INFORMATION STORED IN ANY MEDIA OR ANY PART OF ANY PRODUCT RETURNED TO EIZO OR DISTRIBUTORS FOR REPAIR.

EIZO AND DISTRIBUTORS MAKE NO FURTHER WARRANTIES, EXPRESSED OR IMPLIED, WITH RESPECT TO THE PRODUCT AND ITS QUALITY, PERFORMANCE, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR USE. IN NO EVENT SHALL EIZO OR DISTRIBUTORS BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGE WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF PROFIT, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF THE USE OR INABILITY TO USE THE PRODUCT OR IN ANY CONNECTION WITH THE PRODUCT, WHETHER BASED ON CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, EVEN IF EIZO OR DISTRIBUTORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THIS EXCLUSION ALSO INCLUDES ANY LIABILITY WHICH MAY ARISE OUT OF THIRD PARTY CLAIMS AGAINST THE ORIGINAL PURCHASER. THE ESSENCE OF THIS PROVISION IS TO LIMIT THE POTENTIAL LIABILITY OF EIZO AND DISTRIBUTORS ARISING OUT OF THIS LIMITED WARRANTY AND/OR SALES.
